ASNA

About ASNA

ASNA

For actuarial employers, ASNA is the convention to attend. It is the only association of its kind recognized by the Society of Actuaries (SOA), Casualty Actuaries Society (CAS) and Canadian Institute of Actuaries (CIA). ASNA represents 90% of the actuarial students in Canada and is heavily attended by students from 1st to 4th year, looking for summer internships and full time positions. Today, ASNA consists of thirteen member universities and many employers from across Canada and is continuously expanding both within Canada and internationally.

As a meeting arena for actuarial employers and students, ASNA serves its members in the following ways:

- Ⓐ To represent actuarial students to the professional actuarial societies
- Ⓐ To foster communication amongst employers and students regarding transitioning from being a student to being an employee

Ⓐ To expose employers to students to from across the country

Ⓐ ASNA provides an opportunity for the association to expand their relationships with students, and actuarial organization, both nationally and globally

ASNA achieves the above through actuarial publications including newsletters and magazines, an annual convention, and many new initiatives.

a group of ASNA delegates

Celebrating its 17th birthday in 2006 ASNA has come a long way, receiving praises from employers, academia, and students along the way...

Let me congratulate the whole ASNA organization for a fine job that you do in drawing Actuarial Science students together from across this wide country of ours. The annual conference and the annual magazine are both great successes
- Norman Reilly, Ph. D., A.S.A.

The Convention

This annual convention, hosted by a member university, is the biggest gathering of actuarial students in North America. Here you will meet many students who have goals and visions of working for you, and come from many diverse backgrounds. This is also an opportunity to learn about the students, their expectations and the ideas they have for the future.

students celebrating at the convention in style

"[The convention] was both an educational, and a social event, definitely the best student run conference in the nation!"

-Xiao-bo Li, 4th Year Actuarial Student, University of Waterloo

This year, our convention has moved to the historical city of Montreal. It is a great opportunity for your organization to reach a wide range of Canadian university students all at once. There is no other occasion like this where you

can reach so many prospective employees at one event. It also gives each firm a chance to distinguish themselves from others and give a live explanation of why a student should choose to work at your organization.

Your job, as a sponsor company, is easy; simply show up and the students will come to you! It also a great chance talk about the specialized fields your company has opportunities in and the direction you are heading in the future.

This all weekend event kicks off on the Friday with opening ceremonies followed by the wine and cheese, which is the entire evening dedicated for you to trust your stuff!

[The career fair] was one of the best seen in the US and Canada. It was very professionally organized and extremely well attended. ... We were particularly impressed by the quality of the students attending the fair. Watson Wyatt will definitely be interested in attending next year.

-Sandra Trejo, Watson Wyatt

So come join in the excitement and see you in Montreal!
