|                       |                      |
|                       |                      |

Q: What drives you to be so enthusiastic about ASNA?

A: ASNA is a great way to get in touch with students throughout Canada who are studying the same subjects as I am and it's a great opportunity to get involved in a student association. ASNA is the only national organization exclusively for students in actuarial science in the world and I am very proud to be a member.

Q: What do you do in your leisure time?

A: Actuarial students have leisure time? I try to live a balanced life and so my leisure, after my school and ASNA duties are completed, consists of painting, sports and reading.

Q: What are the duties of your position?

A: As VP Québec I am a representative of all actuarial students in the province of Québec. I am responsible for helping out our president, Mienna, in times of need as well as maintaining a working relationship with the universities.

Q: What are your visions about your position?

A: Because the convention is taking place in Montréal this year, the position of VP Québec is more important than ever. I want to increase student awareness of the convention and encourage their attendance. Moreover, I am always ready to lend a helping hand to those ASNA committees who may need it.

Q: What positions are you interested in for next year's election?

A: ASNA is a great way to get involved in a student organization. Although for the moment I have not yet considered which position I might be applying for, I know that just being a delegate in ASNA is a fun experience and is very rewarding.

Q: Anything else that you want to share?

A: I am inviting everyone to take part of the convention this January in Montréal. Furthermore, as you are reading this, think about whether being a delegate for the next year would interest you.
