Say a few lines to prospective actuary about your company:

This is a terrific place to work and learn about being an actuary. Actuaries at ING are involved in many of the decisions made within the company. Our goal is to provide our analysts with a good basic foundation, and we want you to learn to take a project from A to Z, not just repeat the steps you know. We have a wide variety of projects using many different tools. We succeed as a team, not just as a collection of talented individuals.
