Say a few lines to a prospective actuary about your company:

Dion Durrell has a leading team of actuarial and insurance consultants. We create and implement innovative strategies which encompass risk financing, insurance management and insurance distribution solutions. Our uniqueness rests in our ability to provide far more than actuarial analysis. We can also design the best structure to fit the challenge and, if appropriate, implement and manage the solution on our client's behalf.

Most of all, we never take things at face value. It isn't unusual for us to bring together associates from various areas of our firm to brainstorm ideas about a problem. As a result, we have a reputation for uncovering the possibilities in seemingly impossible situations.
